**Dear Mr Ralf Nolte Director Caritasverband fuer das Erzbistum Paderborn**

**Dear members of Caritasverband fuer das Erzbistum Paderborn**

We attach to you a report about the activity of the Free Clinic in the city of Qamishli Northeastern of Syria for the year 2024.

included numbers of patients in every month for the Free Clinic , the laboratory and the Radiology in last year as well as doctors and workers attached to the tables below .

Note that all examinations include all ethnics of the region and without any discrimination in nationality or religion and are completely free, and include the distribution of medicines, especially those with chronic diseases.

The clinic continued to provide its services to patients even in the most difficult security conditions that our region has gone through.

Noting the decrease in the number of medical services provided compared to previous years, especially in the distribution of free medicines and the laboratory for analysis and x-rays, due to the reduction in the allocations of medicines and materials for the laboratory for x-rays and analysis by you as a result of global circumstances and wars in different places, and the distribution of your humanitarian aid to several parties.

In the link below are pictures of the free medical clinic staff performing their duty to the patients:

God bless you in your humanitarian and charitable work.

Thank you for supporting us
